Re: Response to Review Request No. 069-30864-00030:  
Permit status evaluation  
Plant ID: 069-00030

Dear Mr. Williams:

United Technologies Electronic Controls, Inc. was issued a Minor Source Operating Permit (MSOP) renewal No. M069-27290-00030 on May 11, 2009 for construction and operation of a stationary printed circuit board manufacturer, located at 3650 W. 200 N. Huntington, Indiana 46750.

On September 1, 2011, the source notified IDEM, OAQ that they plan to relocate the Greenline Solderwave, identified as ES09, and associated exhaust stack #62. The unit name, function, capacity and stack ID name will remain the same. In addition, the relocation of the unit will remain in the same building. No increase in fugitive dust, particulate matter or criteria pollutants will result from the proposed relocation of the unit.

IDEM, OAQ has determined that the proposed relocation the Greenline Solderwave, identified as ES09, and associated exhaust stack #62 will not require modification of the existing MSOP Renewal, since the existing MSOP Renewal contains all the federal and state requirements that are applicable to the relocation and United Technologies Electronic Controls, Inc. has indicated that it will continue to comply with the limitations and requirements contained in MSOP Renewal No. M069-27290-00030 issued on May 11, 2009.

All conditions of the permit shall remain unchanged and in effect. Please attach a copy of this letter to the front of the original permit. A copy of the permit is available on the Internet at: <http://www.in.gov/ai/appfiles/idem-caats/>. For additional information about air permits and how the public and interested parties can participate, refer to the IDEM's Guide for Citizen Participation and Permit Guide on the Internet at: [www.idem.in.gov](http://www.idem.in.gov)
