Micheale Derouin, Office Manager
M & M Fabrication, LLC d/b/a Basiloid Diversified Products
312 North East Street
Elnora, IN 47529

Re: 027-31751-00048
First Administrative Amendment to
S027-8349-00048

Dear Micheale Derouin:

Basiloid Products Corporation was issued a Source Specific Operating Agreement (SSOA) No. S027-8349-00048 on April 14, 1997 for a stationary metal forklift attachment surface coating operation located at 312 North East Street, Elnora, IN 47529. On April 17, 2012, the Office of Air Quality (OAQ) received an application from the source requesting that the permit be updated to indicate a change in ownership and company name to M & M Fabrication, LLC d/b/a Basiloid Diversified Products. Pursuant to the provisions of 326 IAC 2-9, the permit is hereby revised as follows with the deleted language as ~~strikeouts~~ and new language **bolded**.

The company name has been revised throughout the SSOA as follows:

Company Name: ~~Basiloid Products Corporation~~
M & M Fabrication, LLC d/b/a Basiloid Diversified Products

IDEM, OAQ has decided to make additional revisions to the permit as described below.

1. Upon further review, IDEM OAQ determined that the SSOA did not contain the most current rule requirements under 326 IAC 2-9. Therefore, the SSOA has been amended to include the most current rule requirements under 326 IAC 2-9-1 and 326 IAC 2-9-3 that were readopted in the Indiana Register on December 1, 2004 (28 IR 790 through 815).
2. The SSOA has been updated from the letter style format to the permit style format, as is now standard IDEM procedure. As part of the new standard format, IDEM branches and sections have been renamed and the IDEM mailing address has been updated.
3. Pursuant to 326 IAC 2-7-1(39), starting July 1, 2011, greenhouse gases (GHGs) emissions are subject to regulation at a source with a potential to emit (PTE) 100,000 tons per year or more of CO₂ equivalent emissions (CO₂e). The source reported to IDEM that they have no combustion of any kind at the facility; therefore, CO₂e emissions were not calculated for this source.
4. This source does surface coating of metal forklift attachment parts and operates under SIC 35 which is listed in 326 IAC 8-2-9 (Miscellaneous Metal and Plastic Parts Coating Operations). The actual VOC emissions at the source are less than 15 pounds per day; however, it is possible that the potential VOC emissions from the source could exceed 15 pounds per day which would cause the source to be subject to 326 IAC 8-2-9. A source that is subject to 326 IAC 8-2-9 must obtain a SSOA under 326 IAC 2-9-3 rather than 326 IAC 2-9-2.5. 326 IAC 2-9-3 will limit the source to less than 15 pounds per day of VOC emissions. This permit has been updated to reflect the correct rule site.

All other conditions of the permit shall remain unchanged and in effect. Attached please find the entire revised permit. A copy of the permit is available on the Internet at: <http://www.in.gov/ai/appfiles/idem-caats/>. For additional information about air permits and how the public and interested parties can participate, refer to the IDEM's Guide for Citizen Participation and Permit Guide on the Internet at: www.idem.in.gov

This decision is subject to the Indiana Administrative Orders and Procedures Act - IC 4-21.5-3-5. If you have any questions on this matter, please contact Deborah Cole, of my staff, at 317-234-5377 or 1-800-451-6027, and ask for extension 4-5377.

Sincerely,
