Re: Response to Review Request No. 089-32580-00239 to
Part 70 Permit No. 089-28597-00239

Dear Mr. Raiders:

On December 3, 2012, Buckeye Terminals, LLC submitted a letter requesting approval from the Office of Air Quality (OAQ) for the offloading and storing of diluent and/or condensate, both petroleum liquids, on a temporary basis (approximately 8 months). The offloading will occur at the existing rail offloading area and the product will be stored in existing internal floating roof tanks which are currently permitted for volatile organic liquids (VOL). No physical modifications are being made to the facility and the change will not result in an increase in emissions.

IDEM has reviewed the information provided by the source and has made the following determination based on the following:

- This project will result in no increase in emissions; and
- No changes in the current air permit emission limitations or conditions are required.

All conditions of the permit shall remain unchanged and in effect. Please attach a copy of this letter to the front of the original permit.

If you have any questions regarding this approval, please contact Susann Brown of my staff at the Indiana Department Environmental Management, Office of Air Quality, 100 North Senate Avenue, MC 61-53 IGCN 1003, Indianapolis, Indiana 46204-2251 or by telephone at (317) 234-5176 or toll free at 1-800-451-6027 extension 4-5176.

Sincerely,

Chrystal Wagner, Section Chief
