Christopher Angel  
CF Industries Sales, LLC - Terre Haute Terminal

Re: 167-32687-00002  
First Administrative Amendment to  
M167-26553-00002

Dear Mr. Angel:

CF Industries Sales, LLC - Terre Haute Terminal was issued a Minor Source Operating Permit (MSOP) No. M167-26553-00002 on October 28, 2008 for a stationary ammonia and other nitrogen-based fertilizer storage and distribution terminal located at 9905 U.S. Highway 41 North, Rosedale, Indiana 47874. On December 20, 2012, the Office of Air Quality (OAQ) received an application from the source requesting that the permit be revised to reflect a name change and/or transfer of ownership of the company. The facility is currently owned and operated by CF Industries, Inc. (CFI), a wholly-owned subsidiary of CF Industries Holdings, Inc. (CF Holdings). CF Holdings initiated a corporate reorganization which, when completed, will result in the transfer of the ownership and operational control of the facility to a new corporate entity with CF Holdings remaining as the highest tier parent in the corporate family. Following completion of the reorganization, the owner/operator of the facility will be CF Industries Sales, LLC, and the name of the facility will be CF Industries Sales, LLC - Terre Haute Terminal, 9905 U.S. Highway 41 North, Rosedale, Indiana 47874.

Pursuant to 326 IAC 2-6.1-6(d)(3), this change to the permit is considered an administrative amendment because the permit is amended to indicate a change in ownership or operational control of the source where there is no other change in the permit is necessary.

The company name has been revised throughout the permit as follows:

Company Name: ~~CF Industries - Terre Haute Terminal~~  
**CF Industries Sales, LLC - Terre Haute Terminal**

IDEM, OAQ has made additional revisions to the permit as described below in order to update the language to match the most current version of the applicable rule, to eliminate redundancy within the permit, and to provide clarification regarding the requirements of these conditions.

Section A.1 of the permit and the reporting forms have been revised to remove all references to the source mailing address. IDEM, OAQ will continue to maintain records of the mailing address.

**A.1 General Information [326 IAC 2-5.1-3(c)][326 IAC 2-6.1-4(a)]**

The Permittee owns and operates a stationary ammonia and other nitrogen-based fertilizer storage and distribution terminal.

Source Address: 9905 U.S. Highway 41 North, Rosedale, Indiana 47874  
Mailing Address: ~~4 Parkway North, Suite 400, Deerfield, IL, 60015-2590~~

All other conditions of the permit shall remain unchanged and in effect. Attached please find the entire revised permit.

A copy of the permit is available on the Internet at: <http://www.in.gov/ai/appfiles/idem-caats/>. For additional information about air permits and how the public and interested parties can participate, refer to the IDEM's Guide for Citizen Participation and Permit Guide on the Internet at: [www.idem.in.gov](http://www.idem.in.gov)

## **ATTACHMENT A FUGITIVE DUST CONTROL PLAN**

Fugitive Particulate Matter Control Plan  
 CF Industries Sales, LLC – Terre Haute Terminal

1. Name and Address of the Source:	CF Industries Sales, LLC - Terre Haute Terminal. 9905 US Highway 41 North Rosedale, IN 47874
2. Name and Address of the owner or operator responsible for execution of the plan:	CF Industries Sales, LLC - Terre Haute Terminal. 4 Parkway North Suite 400 Deerfield, IL 60015
3. Identification of all processes, operations and areas which have the potential to emit fugitive particulate matter in accordance with 326 IAC 6-5-4:	Paved roads from property boundary (US Highway 41) to ammonia loading racks, UAN loading racks, and office. Unpaved roads from property boundary (US Highway 41) to ammonia truck loading area.
4. A map of the source showing aggregate pile areas, access areas around the aggregate pile, unpaved roads, paved roads, parking lots, and location of conveyor transfer points, etc.	Attached is a site plan with the paved and unpaved roads identified.
5. The number and mix of vehicular activity occurring on paved roads, unpaved roads, and parking lots.	See Permit Application – Appendix A: Fugitive Dust Emissions – Unpaved Roads. See Permit Application – Appendix A: Fugitive Dust Emissions –Paved Roads.
6. Type and quantity of material handled.	Anhydrous ammonia and UAN solution. Quantities are variable.
7. Equipment used to maintain aggregate piles.	Not applicable
8. A description of the measures to be implemented to control fugitive particulate matter emissions resulting from emission points identified in subdivision (3).	(E) Equivalent alternate measures: Vehicle restrictions have been implemented at the site. The enforced speed limit is 15 miles per hour.
9. A description of the dust suppressant material such as oil or chemical including the estimated frequency of application rates and concentrations.	Not applicable. Historical experience at the terminal has demonstrated that fugitive dust emissions are effectively controlled with the existing vehicle restrictions (speed limits). Fugitive dust has not been observed crossing property lines. Also, there have been no neighbor complaints regarding fugitive dust.
10. A specification of the particulate matter collection equipment used as a fugitive particulate matter emission control measure.	Not applicable
11. A schedule of compliance with the provisions of the control plan. Such schedule shall specify the amount of time the source requires to award any necessary contracts, commence and complete construction, installation, or modification of the fugitive particulate matter control measures.	Vehicle Restrictions: The speed limit is currently in place and enforced through training of the drivers. Drivers violating this speed limit are stopped and informed they are speeding. If a driver continues to violate the speed limit, access to the site is denied.
12. Other relevant data that may be requested by the commissioner, to evaluate the effectiveness of the control plan.	To be determined

Records shall be kept and maintained that document the control measures under this plan. The records shall be available upon the request of the commissioner and shall be retained for three years.
