SOURCE SPECIFIC OPERATING AGREEMENT OFFICE OF AIR QUALITY

Rex Alton Companies, Inc.
2341 South Old Decker Road
Vincennes, Indiana 47591

(herein known as the Permittee) is hereby authorized to operate subject to the conditions contained herein, the source described in Section A (Source Summary) of this SSOA.

This SSOA is issued to the above mentioned company under the provisions of 326 IAC 2-1.1, 326 IAC 2-9 and 40 CFR 52.780, with conditions listed on the attached pages.

Indiana statutes from IC 13 and rules from 326 IAC, quoted in conditions in this SSOA, are those applicable at the time the SSOA was issued. The issuance or possession of this SSOA shall not alone constitute a defense against an alleged violation of any law, regulation or standard, except for the requirement to obtain a Source Specific Operating Agreement (SSOA) under 326 IAC 2-9.

Source Specific Operating Agreement No. S083-33138-00050	
Issued by:  Iryn Calilung, Section Chief Permits Branch Office of Air Quality	Issuance Date: August 2, 2013

SECTION A

SOURCE SUMMARY

This SSOA is based on information requested by the Indiana Department of Environmental Management (IDEM), Office of Air Quality (OAQ). The information describing the source contained in conditions A.1 and A.2 is descriptive information and does not constitute enforceable conditions. However, the Permittee should be aware that a physical change or a change in the method of operation that may render this descriptive information obsolete or inaccurate may trigger requirements for the Permittee to obtain additional permits pursuant to 326 IAC 2.

A.1 General Information

The Permittee owns and operates a stationary surface coating operation, an abrasive blasting operation and a ready mix batch concrete operation.

Source Address:	2341 South Decker Avenue, Vincennes, IN 47591
General Source Phone Number:	812-882-8519
SIC Codes:	3449 - Miscellaneous Structural Metal Work 3273 - Ready Mixed Concrete
County Location:	Knox County
Source Location Status:	Attainment for all criteria pollutants
Source Status:	Source Specific Operating Agreement (SSOA) Not 1 of 28 Source Categories

A.2 Source Summary

This stationary source consists of the following:

- (1) Surface Coating or Graphic Arts Operation [326 IAC 2-9-3]
- (2) Abrasive Cleaning Operation [326 IAC 2-9-5]
- (3) Ready-Mix Concrete Batch Operation [326 IAC 2-9-9]

Source Determination

Rex Alton Companies operates a surface coating plant, a sandblasting plant and a concrete batch plant at 2341 South Decker Avenue, Vincennes. IDEM, OAQ has examined whether these three plants are part of the same major source. The term "major source" is defined at 326 IAC 2-7-1(22). In order for the plants to be considered one major source they must meet all three of the following criteria:

- (1) the plants must be under common ownership or common control;
- (2) the plants must have the same two-digit Standard Industrial Classification (SIC) Code or one must serve as a support facility for the other; and,
- (3) the plants must be located on contiguous or adjacent properties.

Rex Alton Companies owns all three plants. Since the plants are under common ownership and, therefore, also under common control, the first element of the major source definition is met.

The SIC Code Manual of 1987 sets out how to determine the proper SIC Code for each type of industry. The principal product of a plant determines its SIC Code. The surface coating plant paints metal parts and has the two-digit SIC Code of 34 for the Major Group Fabricated Metal Products, Except Machinery and Transportation Equipment with a four-digit SIC Code of 3479 for Coating,

Engraving, and Allied Services, Not Elsewhere Classified. The sandblasting plant also has the two-digit SIC Code 34 and has the four-digit SIC Code 3471 for Electroplating, Plating, Polishing, Anodizing and Coloring, which includes sandblasting metal parts. The concrete plant has the two-digit SIC Code of 32 for the Major Group Stone, Clay, Glass, and Concrete Products. Only the surface coating plant and the sandblasting plant have the same two-digit SIC Code.

All three plants stay open year round. All three plants are located at the same property. The same employees operate all three plants. The employees move, as a group, from plant to plant as business needs dictate. Since the same group of employees travels from plant to plant, each plant serves as a support facility to the other. The second element of the definition is met for all three plants.

All three plants are located on the same property, meeting the third element of the definition. Since all three plants meet all the elements of the major source definition, IDEM, OAQ finds that the three Rex Alton Companies plants are one major source.

Note: This SSOA S083-33138-00050 shall supersede SSOA 83-24779-00050, issued on June 6, 2007 and SSOA 083-31886-00050, issued on May 22, 2012.
